## WORK EXPERIENCE

### **Kansas State University (Senior Design)** Manhattan, Ks — *Software Engineer*

August 2018 - PRESENT

Collaborated with a team of developers tasked with the design and implementation of a full stack application to be used by the university. The application is scheduled for full deployment in May of 2019.

### **Kansas State University (Concurrent Systems)** Manhattan, Ks — *Software Consultant*

October 2018 - December 2018

Assisted cancer researchers in the development of python based supercomputing software. Primary duties included developing new features, performing bug fixes, and providing guidance in the development process.

### **Agape's Grace Inc.** Louisburg, Ks — *Store Associate*

May 2015 - August 2016

Aided store operations across a number of departments. Primary duties included providing customer support, maintenance, cashier work, and bookkeeping.

## EDUCATION

### **Kansas State University** Manhattan, Ks — B.S. Computer Science

August 2016 - May 2019

Began college coursework during high school in order to graduate a year ahead. Anticipated graduation date is May 2019.

## WEBSITES

### **Project Portfolio** — <https://github.com/dbelle25>

A complete backup of school related projects as well as a working collection of personal applications and experiments.

## SKILLS

Object Oriented Programming  
SQL Database Development  
Web Application Development  
Agile and Scrum Development

## LANGUAGES

C#, C/C++, Python, SQL,  
JavaScript, React, Node.js,  
Express, HTML/CSS

## EXTRACURRICULARES

**ACM Programming Competitions** — Competed with a team of developers in a series of software design challenges. In Oct 2018 our team took 5th overall.

**K-State Marching Band** — Constantly learned and adapted to new shows and provided assistance to struggling peers wherever needed.

**Private Music Teaching** — Volunteered to teach private music lessons to struggling beginning band students on the trumpet.
